

SOCIAL SECURITY NUMBER STATUS FORM (Requires Parent Action)

Virginia Code §22.1-260 requires that each student present a federal social security number within 90 days of his or her enrollment in school. Presentation of a social security number is part of the states' efforts to identify and locate missing children. State guidelines permit this requirement to be waived under certain circumstances including the following:

- a student, along with his parent, by reason of bona fide religious training or belief, is conscientiously opposed to having a federal social security number;
- the student's application for a social security number would require disclosure of his illegal immigration status to a federal agency; and
- the student is a member of a non-immigrant family that is legally temporarily living in the United States, such as families whose member are employed in embassies or in other international organizations.

Your child will *not* be excluded from school or denied a right or privilege for refusal to present a social security number. In the Arlington Public Schools, the student number will be used to identify students whose parents are unable or unwilling to present a social security number.

Receipt of this letter means that the school does not have updated information on your child. If your child does not have a social security number on file at his or her school, please complete the information below or provide proof that a social security number has been secured.

STATUS (Check one)

Student /family will file an application for a social security number.

Application for a social security is in process (receipt presented).

In accordance with the Code of Virginia, Section 22.1-260, a social security number waiver has been granted for the student because the student is ineligible to obtain a social security number, or the parent is unwilling to provide that social security number.

Social Security Number included in Registration.
