2016 APS Go! Surveys
Summary Results for Claremont Immersion School

This report summarizes results from the 2016 APS Go! surveys for Claremont Immersion School. Student, parent/caregiver and staff surveys were conducted at all schools and work sites as part of APS Go! The APS Go! initiative was launched in 2013 to support APS’s transportation philosophy:

APS will provide safe, efficient, and convenient transportation choices, which recognize the diverse needs of families and staff, strive to reduce traffic congestion and emissions around schools and their neighborhoods, and promote healthy living and learning.

APS Go! is a community-wide, school-driven process that raises awareness and provides incentives, information and encouragement related to walking, biking, transit, car/vanpooling, and school busing. The 2016 APS Go! surveys mark the second time since 2013 that APS has surveyed all staff members, parents, and students.

This report provides an overview of travel patterns at your school in fall 2016 and can be used to develop strategies to increase sustainable transportation use. Table 1 (next page) lists the surveys included in the report and provides notes to help interpret the results. To view a summary of survey responses from all APS schools and work sites, including the number of responses by location, please visit the APS Go! website at https://www.apsva.us/aps-go/

| Student Travel Tally    | • Classroom show-of-hands survey conducted by PE teachers  
• Summarizes how students in grades K-10 traveled to and from school on the days the tallies were collected.  
• In combination with Parent Survey data, can be used to estimate how students in grades K-10 usually travel to and from school.  
• Provides a valuable data point that can be used to help measure your school’s progress toward increasing sustainable transportation use.  
• Based on the parents who responded to the survey.  
• Summarizes the most common way parents report that PreK-10 students travel to school throughout the school year.  
• In combination with Student Travel Tally data, this can be used to estimate how students in grades PreK-10 usually travel to your school.  
• Describes how far students live from your school and what parents perceive to be the ideal mode for school travel, which can help you gauge the potential for increasing sustainable transportation.  
• Describes parent perceptions on barriers to their child’s ability to walk, bike, take transit, ride the school bus, or carpool, which can be helpful when developing strategies to encourage sustainable transportation use.  
• Based on the staff members who responded to the survey.  
• Summarizes the most common way APS staff travel to your school throughout the school year.  
• Describes what APS staff members at your school perceive to be barriers to their ability to walk, bike, take transit, or carpool/vanpool, which can be helpful when developing strategies to encourage sustainable transportation use.  
For assistance with developing strategies to increase sustainable transportation use, please reach out to the contacts listed in Table 2.

Highlights of Parent Survey

What is the MOST common way your child travels TO school?

- 63.80% School bus
- 22.30% Driven by parent, guardian, or caregiver (my family only)
- 13.80% Walk
Approximately, how far is your child's trip TO school?

- 58.10% 1 1/2 miles or more
- 18.30% 1 mile up to 1 1/2 miles
- 9.70% 1/2 mile up to 1 mile
- 6.50% 1/4 mile up to 1/2 mile
- 7.50% Less than 1/4 mile

APS Go! Smart Routes, Smart Choices
What is the MOST common way your child travels FROM school?

- 44.60% School bus
- 41.30% Driven by parent, guardian, or caregiver (my family only)
- 10.90% Walk
- 1.10% Carpool (shared trips with other family)
- 1.10% Public transit (e.g., Metrorail, Metrobus, ART)
- 1.10% Other
Why doesn’t your child WALK OR BICYCLE to school more frequently? Select up to 3 top reasons.

- Too far/takes too long
- Concerns about traffic safety
- Concerns about bullying, violence, or crime
- Heavy/bulky items to carry
- Weather, climate, or darkness
- Before or after school activities
- School is on the way to another destination and driving is the most convenient way to get there
- I feel that my child is too young
Why doesn’t your child ride the SCHOOL BUS to/from school more frequently? Select up to 3 top reasons.
Why doesn’t your child take PUBLIC TRANSIT to/from school more frequently? Select up to 3 top reasons.
How would you like your child to travel to and from her/his school ideally?

- 74.20% Ride school bus
- 20.20% Walk
- 5.60% Bicycle
Staff Travel
Highlights of Staff Transportation Survey

What is the MOST common way you travel to and from your APS work location(s)?

- 78.70% Drive (personal vehicle or motorcycle)
- 8.20% Walk
- 4.90% Public Transit (Metrorail, Metrobus, ART)
- 3.30% Bike
- 1.60% Other
- 1.60% Drive (APS vehicle)
- 1.60% Carpool

This report is filtered to show: Question "Where do you work within APS?" #2 is one of the following answers ("Claremont Immersion Elementary School").
What are the reasons you don’t use PUBLIC TRANSPORTATION to travel to/from your APS work location more frequently? Select up to 3 top reasons.
What are the reasons you don’t WALK OR BIKE to/from your APS work location more frequently? Select up to 3 top reasons.

- Too far/takes too long
- Concerns about traffic safety
- Heavy/bulky items to carry
- Weather, climate, or darkness
- Lack of showers or lockers
- Need car for travel during work
- Need car for travel before/after work (e.g., for errands, transporting children, other job)
